TIMEFALL CORPORATE DIRECTIVE

FROM: Office of Arthur Pendelton

TO: System Administrator

SUBJECT: NODE 9 INCIDENT RESOLUTION

Administrator,

Your submission of the Node 9 clearance protocol has been verified. The unauthorized network bleed affecting the Communications and Engineering departments has been successfully isolated and neutralized.

All localized temporal distortions have been patched. The Bell Tower project will resume immediately under strict Level 4 security protocols.

Your administrative privileges have been logged and your contract is hereby finalized. Do not attempt to access the archived terminals again.

Secure the grid.
